SKILLS

- Java Core
- Kotlin
- Ktor
- Spring
- Java EE
- Java FX
- PostgreSQL
- Bash
- GIT

PROFILE

Java Developer with development experience of about 1.5 year. I was engaged in creating a client-server application using TCP protocol and database on PostgreSQL, located on a server with OS Bash. The task was to use TCP protocol and JDBC to write a server to work with a catalog (collection) of apartments and a client on Java FX to this server.

EDUCATION

Faculty of Informatics and Computer Engineering, ITMO University, Saint Petersburg

SEPTEMBER 2022 – SEPTEMBER 2023

Faculty of Software Engineering, ITMO University, Saint Petersburg

SEPTEMBER 2023 – PRESENT

PROJECTS

Expanding the Information Space of a Museum's Exposition Using Digital Technologies (as an Example of Developing a Mobile Application for the Historical and Memorial Museum "Smolny") – C#, Unity

DECEMBER 2022 – PRESENT

- <https://github.com/ColdDirol/Unity-Smolny-App>
- XII Congress of Young Scientists (YSC) of ITMO University, St. Petersburg, Russian Federation, April 3–6, 2023 – participation

Java TCP server for working with apartment collection and a client with GUI – Java, JDBC, PostgreSQL, Java FX

FEBRUARY 2023 – FROZEN

- Server + client (without GUI) – [please click](#)
- Client (with GUI) – [please click](#)

Simple video hosting implementation – Kotlin, Ktor, Minio S3, H2

FEBRUARY 2023 – FROZEN

- Server + Webpages – [please click](#)

WORK EXPERIENCE

RBI Concept – Junior Kotlin Developer

SEPTEMBER 2023 – NOVEMBER 2023

The internship at RBI Concept gave me a lot of practical knowledge in working as a web programmer. I learned about the Ktor framework for Kotlin, Liquibase database migrations, Docker and really learned how to work in a team.
